- Zinc finger domain factors
 - C4 zinc finger factors
 - Fork helix-loop-helix factors
 - Nuclear receptors
 - Basic leucine zipper factors (bHLH)
- DM-type intertwined zinc fingers
 - T-Box factors
- SMAD/NF- κ B DNA-binding factors
 - Tryptophan cluster factors
 - Paired box domain factors
 - MADS box factors
- High-mobility group (HMG) domain factors
 - Heteromeric CCAAT-binding factors
 - Heat shock factors
 - STAT domain factors
- Unknown
 - CRC domain
